ND Highway 11 east of Oakes now open to traffic

The North Dakota Department of Transportation has opened ND Highway 11, approximately 4 miles east of Oakes. The road was closed to last week due to a construction project and flooding issues. Work will continue on this roadway to complete a grade raise project, but it will remain open to traffic.

During construction

- Traffic speeds will be reduced
- Gravel may be present on the roadway

Weather permitting, this project is expected to be complete by the end of September. For road information, motorists should go to www.dot.nd.gov or call 511.
